REPORT
OF THE
TERRITORIAL SECRETARY
OF THE
NORTH-WEST TERRITORIES

1902

PRINTED BY ORDER OF THE LEGISLATIVE ASSEMBLY

REGINA
JOHN A. REID, GOVERNMENT PRINTER
1903

REPORT
OF THE
TERRITORIAL SECRETARY
OF THE
NORTH-WEST TERRITORIES

1902

PRINTED BY ORDER OF THE LEGISLATIVE ASSEMBLY

REGINA :
JOHN A. REID, GOVERNMENT PRINTER
1903

DEPARTMENT OF THE TERRITORIAL SECRETARY,

REGINA, *January 2, 1903.*

To His Honour

AMÉDÉE EMMANUEL FORGET,

Lieutenant Governor of the North-West Territories.

SIR,—

I have the honour to submit herewith the Annual Report of the Department of the Territorial Secretary for the year 1902.

I have the honour to be, Sir,

Your obedient servant,

GEO. H. V. BULYEA,

Territorial Secretary.

DEPARTMENT OF THE TERRITORIAL SECRETARY,
REGINA, *January 2, 1903.*

The HON. G. H. V. BULYEA,
Territorial Secretary,
Regina.

SIR,—

I have the honour to submit the Report of work performed by this Department for the year ending the 31st of December, 1902.

The Report consists of a list of all the joint stock companies incorporated during that period; all licences granted to foreign corporations authorising them to carry on business within the Territories; a list of cemetery companies organised; butter and cheese manufacturing associations incorporated under The Dairymen's Ordinance; a list of commissions issued to justices of the peace, notaries public and commissioners for taking affidavits within and without the Territories; coroners; and a list of licences issued to qualified veterinary surgeons authorising them to practise their profession in the Territories.

THE COMPANIES ORDINANCE.

In the appendix will be found a list of the joint stock companies incorporated during the year, in all 99 companies, making a total of 123 companies incorporated under The Companies Ordinance since it came into force on June 12, 1901. This shows a substantial increase over any previous year in the history of the Territories, and indicates an increased development of the natural resources of the Territories. Of these companies 19 were elevator, milling and grain companies, 5 land and development companies, 17 ranching and stock companies, 32 trading and manufacturing companies—a significant index of the progress of the Territories and the universal recognition of the fertility of its soil.

THE FOREIGN COMPANIES ORDINANCE.

Ever since the beginning of the year a larger number of persons than ever before, from the United States and elsewhere, have come to examine the land in the Territories and test, as far as possible, the rumours of their potential fertility, and verify the motto of the Canadian arch in London at the time of the coronation, "Canada, Britain's Granary." Many who came were experienced farmers, an advance guard of pioneers sent as experts from large colonies of intending settlers; others were capitalists to whom our rich land offered exceptional promises of profitable investment—promises that in most instances have already been more than performed. The verdict of all was that it was a true report they had heard in their own land, and the half was not told them. During the early spring and summer a number of large companies were incorporated, controlling millions of acres of land and representing many millions of dollars of capital. In many cases preparations were made for immediate settlement; land was broken; crops put in; farm houses built and villages erected. Such enterprise once under way could not fail, by its impetus, to set others in motion. Agricultural machinery and

other manufacturing companies, both from the older provinces of the Dominion and from the United States, soon followed in their wake, but the progress of the Territories cannot be gauged by those companies who have complied with the laws of the Territories up to the 31st of May, as, at this time, when what may reasonably be called the "boom" of the Territories was making itself felt, The Foreign Companies Ordinance was disallowed by the Governor General in Council. Although the effect of this disallowance was to revive The Foreign Companies Ordinance of 1897, it affected companies holding a charter from the Dominion of Canada, and at present such companies can, and do carry on business in the Territories without reference to this Department in the matter of registration or the payment of fees. It is therefore impossible to say how many companies are at present operating within our borders, nor is it necessary to point out the disadvantages under which companies, whose charters were obtained from the Provinces of the Dominion, the United States or elsewhere, are placed in this respect. It is to be hoped that legislation will be introduced at the coming session of the Legislative Assembly placing all foreign companies doing business in the Territories on an equal footing.

LIBRARY.

On the 30th September Mr. Laird, who had been in charge of the Legislative Library for a short time, retired from the public service and the care of the library was then transferred to this Department. In the appendix will be found a list of books added, but it was late in the year before a list could be prepared. A large order was sent away in December, comprising within the limits of the appropriation, the most notable books of the year bearing on subjects liable to be of use for reference by the members of the Assembly but these books had not been received at the close of the year. Several new newspapers have been published in the Territories and will be found in the reading room, where convenient racks and files for holding the current newspapers have been placed and, by the addition of increased shelving, the back numbers have been rendered more easy of access. In the early part of the year, while the Library was still in charge of your Department, correspondence was opened with the various States of the Union with a view to exchanging their laws and official publications for those of the North-West Territories. I am pleased to say that most of the States accepted, through their proper officers, the proposition, and the State publications of New Hampshire, Connecticut, Vermont, Missouri, Maine, Georgia, Kansas, Nevada, Montana, New York, Maryland, Massachusetts, Minnesota, etc., were received and transferred to the Library of the Attorney-General which is, I believe, continuing the exchange.

On the first of the year the issue of marriage licences and all licences to pedlars, auctioneers and hawkers will be added to the duties of this Department.

The revenue received by the Department amounts to \$10,657.70, composed as follows :

Under The Companies Ordinance	\$3,765 45
Under The Foreign Companies Ordinance.....	6,814 25
Licences to veterinary surgeons.....	30 00
Certificates under Territorial Seal.....	48 00
Total	<u>\$10,657 70</u>

But for the disallowance of The Foreign Companies Ordinance alluded to above, the receipts would have been much larger.

The following comparison of the capital stock of companies incorporated within the North-West Territories may be of interest :

Capital stock of all companies incorporated under letters patent.....	\$2,990,400 00
Capital stock of all companies incorporated under The Companies Ordinance of 1901, from the 12th June to 31st December.....	\$3,487,500 00

Capital stock of all companies incorporated under The Companies Ordinance during the year 1902.....	\$9,150,500 00
Deduct the capital of companies reincorporated during the year under the Ordinance.....	<u>1,045,900 00</u>

Total capital stock of new companies incorporated during the 12 months ending the 31st December, 1902	\$8,104,600 00
---	----------------

I have the honour to be, Sir,

Your obedient servant,

EDW. J. WRIGHT,

Acting Assistant Territorial Secretary

APPENDIX.
